Hong Kong's upscale furniture and design fair returns for its second edition, welcoming leading architects, designers and creatives from around the world.

Description

The International Furniture and Design Fair Hong Kong aims to be the city's premier design event, offering a platform for cultural and creative exchanges with local and international design talents.

This year's theme is "redefining luxury," inviting visitors to explore new trends in high end design. Alongside showcasing products from leading lifestyle and luxury brands, the fair will put on a series of talks from leading lights in the industry.

Among the speakers will be William Lim of CL3 architects, who will give a talk on compact living, and M+ curator Aric Chen, who will hold forth on the subject of Asian museums.
