Expect innovative designs and exhibits by acclaimed Asian designers at this upscale boutique design event.

Returning after a successful debut last year, the International Design Furniture Fair is back at the Convention Centre with bigger and better showcases. With the theme “Redefining Luxury”, the fair features five unique design exhibitions including an innovative 18m<sup>2</sup> modern habitat by William Lim; a tribute to the works of Zaha Hadid and works by local design master Alan Chan. The three-day event also includes panels with acclaimed designers and architects, as well as a gallery showcase of lifestyle brands. Design lovers, this one is for you.
